The PleurX catheter system is the easy-to-use and effective choice for the home management of recurrent pleural effusions and malignant ascites. With the PleurX in-dwelling catheter and vacuum bottles, patients can manage fluid accumulation through intermittent drainages at home, with minimal physician intervention.

European product offering
1. Vacuum bottle
Active vacuum technology drains quickly and comfortably without the need for gravity. Bottles available in 500 ml and 1000 ml sizes.

2. Patented safety valve
Helps prevent inadvertent passage of air or fluid through the catheter.

3. Polyester cuff
Promotes tissue ingrowth to help reduce infection risk and hold the catheter securely in place.

4. 15.5 Fr silicone catheter
Soft and flexible, conforms to the pleural space and minimizes insertion site discomfort.

5. Beveled fenestrations
Large, smooth fenestrations with beveled edges promote drainage and help avoid occlusions.

**Why choose the PleurX catheter for your patients?**

**Clinically proven**
- More than 15 years of clinical use
- Outcomes published in more than 28 clinical journal articles*
- Multi-specialty utilization (oncology, thoracic surgery, pulmonology / interventional pulmonology, interventional radiology)

**Positive outcomes**
- Spontaneous pleurodesis in up to 70% of certain patient subgroups (~58% overall)^1
- Rapid symptom relief
- Low infection rates (less than 3%)^1,2,3
- Helps eliminate the need for hospital visits for repeat paracentesis or thoracentesis

**Easy to use and well accepted**
- Patients can control their own drainage at home
- Catheter placement usually performed as an outpatient procedure
- Active vacuum technology is safe, comfortable and quick
- Can be utilized by home health and hospice
- Extensive patient education materials available

Clinicians and their patients can have confidence in a solution that has been used for years by many cancer institutions.

PleurX drainage kit

The PleurX catheter system is a comprehensive portfolio that provides all the items necessary to successfully place the PleurX catheter, support and train your patients, and help ensure safe and effective drainage by patients or their caregivers.

Each kit (50-7500B and 50-7510) contains:

- Plastic vacuum bottle with drainage line
- Self-adhesive dressing
- Blue wrapping:
  - Alcohol pads (qty: 3)
  - Pair of gloves
  - Valve cap
  - Blue emergency slide clamp
  - Gauze pads, 4” x 4” (10.2 cm x 10.2 cm) (qty: 4)
  - Foam catheter pad

For your patients with recurrent pleural effusions and malignant ascites, consider the PleurX system as a preferred therapy option. Its clinically proven efficacy has been well documented, it is well accepted by patients and it gives you another opportunity to improve the comfort and quality of your patients’ lives.

PleurX catheter kit

Each kit (50-7050 and 50-9050) contains:

- PleurX catheter, 15.5 Fr
- Drainage components:
  - Drainage line with access tip
  - Needle, 17G x 1” (2.5 cm)
  - 5-in-1 drainage line adapter
  - Valve cap
- Dressing components:
  - Gauze pads, 4"x 4" (10.2 cm x 10.2 cm) (qty: 8)
  - Foam catheter pad

For your patients with recurrent pleural effusions and malignant ascites, consider the PleurX system as a preferred therapy option. Its clinically proven efficacy has been well documented, it is well accepted by patients and it gives you another opportunity to improve the comfort and quality of your patients’ lives.
